About This Game

Not every case goes to trial and of those most are "bench trials". After years of trying cases as a trial lawyer your efforts have finally been noticed by the State's Governor. Although your recent appointment as a judge forces you to start at the bottom of the judicial totem pole it's only a matter of time until you become a State Supreme Court Justice.

Weigh evidence from the lowly traffic courts to the Court of Appeals as you gain favor with the Governor to become a State Supreme Court Justice.

I received this game for free by the dev to review it and give feedback on the current development of the game; the initial gameplay & Review of the game can be found here: <https://www.youtube.com/watch?v=WsuiCDY4V88>

So To start off, I've reviewed a few RPG Maker games in the past and this one is among the few I really enjoy, the game is quirky and fun. With quite a repetitive experience which is delivered rather well! Combat is somewhat the same as your typical RPG game where it's turn based, however in this its time based (Look at FF7 for an example) which does give a good aspect of it.

There's also a function called "friendship" which I personally love in RPG games, it's always a good function to have however this is rather bland in this game but it does have a nice touch (Not telling anymore about this ;))

There is some mild adult humor within the game along with possibly a few swear words (which personally is one of the reason I quite enjoy the game), you also get to "assemble" your team & gain popularity to unlock more things.

For more about the game I'd recommend paying for the game as it is honestly worth it.

I'd rate the game: 8/10 for an RPG game!. Worse DLC, Cold cold heart addition story only provide a very short story and boringly boss battle. the rest of dlc is just the skin and new challenges. ONLY buy it when there's sale otherwise DONT!.

Español:

Es un muy buen juego para pasar el rato jugando, para distraerte con los amigos muy recomendable y su precio lo vale

Inglés:

It is a very good game to spend the moment playing, to distract you with the friends very advisable and its price costs it. I like the fact that this game keeps growing for the better. I'm normally not a fan of the micro transactions in-game moves, but the developer's have really worked hard not only to continue to bring high value content for hours on end of fun factors for the whole family but also a very high teaching tool for the real life experiences. In this dlc they are giving a high value away, but in-game you still have to manage things very wisely. so thx again and look forward to future updates and dlc.. So addictive. Very much like Rogue Legacy, though the upgrade system is a little different. Very replayable, very fun, hacky-slashy goodness in short levels with a boss on each floor. Great fun!. You want to know what's fun about this game?

The cool music!

The rad level layouts!

The awesome character design!

You want to know what's not fun about this game?

Bat Jumping. That level is garbage, there's like a 50% chance you'll actually make it to the next platform if you land on the bat like you're supposed to. This level wasn't fun, it was cheap.

Other than that one particular level, this game is great! 8V10

Edit: Actually, all sections where you have to jump on bats seem to be broken. So if you're at a part where there's bats... I gotta say it's a solid 7V10

Edit (again): Wow, they still haven't fixed the parts with the bats... seriously?? 5V10 I guess?

Edit (again again): well... as someone who's played over 6 hours of this garbage game... They Breathe is about the same price, but doesn't have any annoying bugs. I was born with glass bones and paper skin. Every morning I break my legs, and every afternoon I break my arms. At night, I lie awake in agony until my heart attacks put me to sleep.. I wanted to like this. I tried. But I got bored, fast. I guess it's fine as a pick up and play game, but if you're looking for a game to draw you in and keep your attention fixed then you should look elsewhere.

The good:

Decent graphics

Explosions themselves look alright

The bad:

Repetitive gameplay

Repetitive graphics

Little enemy variation

Little or no damage indications on enemy ships

Explosion animations overlay the enemy ship sprites in a very obvious way

Character artwork is pretty poor

Typos

Music is pretty bad, and repetitive

Only 5 missions, although I didn't even feel like playing them all

Achievements don't register on Steam

Is there a plot?

All in all, this game isn't that fun. However, if you want something super simple and mindless to mop up some spare time with and like this kind of shmup then you might consider buying this. On sale.. +rep took my virginity :)

Tons of fun. This game reminds me a lot of boffer fighting. Highly recommended! Be aware that the needs a decent amount of totally clear space. I have a 3mx2.5m room and I'm hit or backed up into a wall multiple times and I've not yet finished novice.. I'll give it a tentative recommendation. Nice style and music and the story's ok, but it's boring - too much slow walking, back and forth to locations, and a strict order of operations to the puzzles lead to a lot of retreading and pointless clicking. All those factors make it needlessly long for the amount of story it covers. Fans of noir or old school point and click will like it but don't pay anything close to full price. Oh and the ending is a cliffhanger for the supposed sequel, so there's no payoff whatsoever for your long dull tread.. Pretty seeing Rays. Edit: Certain people seem clueless to the fact that a game needs to have good single player if it doesn't have online multiplayer. This game's single player is horrible and is not worth the price of the game at all. I wasn't looking for a game to play with friends. I was looking into a game that plays well single player. And the fact they need you to sign in to your steam account to prove you have the game to play with other people... That's beyond stupid. This game is bad unless you live in a condensed neighborhood where all your friends live within 4 miles of you. Then you might MIGHT get some enjoyment out of this game. Go get better versions of this game. This is a common genre on Steam and I suggest you look into better ones.

Without online multiplayer this game has you rely on hooking up gamepads and playing with local friends. Not to mention it forces you to create/sync up a steam account. Which can be good but without an online mode this seems rather pointless other than character looks. Main issues is that it's not very user friendly and what if you don't have any local friends? Well you have the AI but that does get boring quick. I'd not recommend it until some sort of online feature is implemented.. Loving this game so far BUT one thing, why is the health so low and why am i randomly dying is it timed or something? If so then that needs removed immediatly because I hate just randomly dying.

One thing I think you should add is the ability to upgrade different stats of your character I.E Health, Stamina, Damage, you get the jist but other than that I do like this game
